### New Business

Patrick Hamilton presented a summary on project requests received up to this point. (This list does not include projects proposed from the meeting from June 21, 2023 from the City of York).

Mr. Hamilton also presented 3 projects for the committee to consider:

- Exit 90 – funding would help offset the match from SIB funding
- Realign Campbell Road with Allison Creek Road
- Hwy 160/Carolina Place intersection – create a secondary outlet to Pleasant Road.

The Committee held a general discussion regarding the resurfacing component. Staff recommended putting more funding toward resurfacing projects, approximately \$75M to \$100M. Committee members would like staff to develop a list of prioritized resurfacing projects for the committee to consider. Staff will also attempt to identify any planned SCDOT repaving projects. Committee members felt that resurfacing a smaller neighborhood does not affect enough citizens to make it viable for a Pennies project.

The Committee also held a general discussion regarding the projects presented and how to prioritize. Committee members stated that carryover projects should be the top priority projects, resurfacing projects should be second priority projects then follow through with major projects. Staff will not know until early 2024 which projects will carryover from Pennies 4.

Committee members scheduled another meeting on July 18 at 6:30pm to meet and create a short-list of projects.

Committee members also schedule another meeting on October 11 at 6:30pm to meet and finalize the short-list of projects.
